

NextGen for

# Neurology

## You Are Here.

Completing routine exams, reports, and referrals consumes valuable time and resources. Recording patient data in paper charts is inefficient and labor-intensive. Daily documentation is a painstaking task, and transcription is expensive. Precious time is exhausted pulling charts and responding to inquiries.

## You Could Be Here.

Destination — Future-Focused Neurology

Quickly and accurately diagnosing, treating, and managing patients' neurological disorders using diagnostic-driven templates. Electronically documenting and storing patient data, thereby greatly reducing chart-pulls, dictation, and transcription—and the associated costs. Coding at the full level indicated by the work you do, not just the words dictated. Ordering and reviewing tests and lab results with a few simple clicks. Leveraging technology to comprehensively manage your patients' health.

## So How Do You Get There?

NextGen — Empowering Neurologists with Fully Integrated Technology

NextGen Healthcare provides powerful electronic health record (EHR) and practice management software designed to accommodate the unique needs of neurologists. NextGen® Ambulatory EHR and NextGen® Practice Management software can be implemented as a fully integrated solution or as stand-alone applications. Either way, you will benefit from our extensive knowledge of your specialty. Already live in hundreds of practices nationwide, the NextGen® system is designed to meet your unique clinical and administrative needs. We also offer full training and support services to ensure a successful implementation.

## The NextGen Difference

It takes more than software to produce success in a complex environment. That's why NextGen Healthcare sees a business relationship as an ongoing partnership. We maintain our commitment to neurology with specialized service, training, and experience.

NextGen Healthcare's Ambulatory EHR and Practice Management software are fully integrated to share a single database platform, providing improved control and knowledge over clinical and billing operations. Find out more about how our scalable, flexible, and reliable enterprise system—the only system endorsed by the American Association of Neurological Surgeons (AANS)—can help you better coordinate care, streamline workflow, improve efficiencies, and enhance quality of care, while increasing overall revenue. For more information please call 215-657-7010 or visit [nextgen.com](http://nextgen.com).

Unified Parkinson Disease Rating Scale screen

# NextGen Benefits for Neurologists

---

- Simplified patient visits and better patient care through neurology-specific knowledge-based templates and evaluation and management (E&M) coding
- Increased competitive advantage and enhanced overall revenue through automated data collection and user-friendly reporting tools
- Ongoing support from an award-winning team of industry experts, including a Specialty Director dedicated to serving the needs and interests of neurologists

## Simplified Patient Visits, Better Patient Care

- **Exclusive neurology knowledge base** content developed with leading neurologists
- **Pre-built neurology templates** make documenting and storing detailed patient data as fast as dictation. NextGen Healthcare templates cover History of Present Illness (HPI), a variety of neurology procedures/exams, histories, labs, consults, and more. Unlike competitive offerings, we offer a wide variety of neurology-specific data, including content for Parkinson's Disease, Epworth Sleepiness Scale, Cognitive Assessment, Bell's Palsy, back pain, carpal tunnel, dizziness, headache, loss of consciousness, memory loss, musculoskeletal pain, numbness, seizures, stroke, and more
- **E&M Coding**, using templates that include clinical support tools
- **Standard scoring tools** such as the Unified Parkinson Disease Rating Scale and the Cognitive Assessment Tool—with additional tools added based on physician and clinician recommendations
- **Quick electronic prescription orders** with automatic checks for harmful drug/allergy interactions

## Increased Competitive Advantage, Enhanced Overall Revenue

- **Case management capabilities**, which deliver easy billing for Workers' Compensation, self pay, sports injuries, auto accidents, and other unique neurology circumstances— even when the patient is involved in multiple situations
- **Automated data collection and user friendly reporting tools** for pay-for-performance, quality measures, and business analysis

## Ongoing Support from a Team of Industry Experts

Our proven implementation strategy and focused training philosophy maximizes the expertise of knowledgeable neurology trainers. We guide your implementation using neurology-specific training scenarios and tools. Once our system is installed, a wide variety of training and support services are available to help you maximize your technology investment.
