

# NextGen for Obstetrics and Gynecology

## You Are Here.

Completing routine exams, reports, and pre-op instructions consumes valuable time and resources. Recording patient data in paper charts can be inefficient and labor-intensive. Daily documentation is a painstaking task. Precious time is exhausted pulling charts and responding to inquiries.

## You Could Be Here.

Destination — Future-Focused OB/GYN Practice

Quickly and accurately diagnosing, treating, and managing patients' gynecological disorders using diagnostic-driven templates. Efficiently documenting standards-based prenatal electronic flow sheets.

Electronically documenting and storing patient data, thereby vastly reducing chart-pulls, delayed responses, and labor costs. Coding at the highest level possible. Ordering and reviewing tests and lab results with a few simple clicks. Leveraging technology to comprehensively manage your patients' health.

## So How Do You Get There?

NextGen — Empowering Physicians with Fully Integrated Technology

NextGen Healthcare provides powerful electronic health record (EHR) and enterprise practice management (EPM) software designed to accommodate the unique needs of OB/GYN practices. NextGen® EHR and NextGen EPM can be implemented as a fully integrated solution or as stand-alone applications. Either way, you will benefit from our extensive knowledge of your specialty. The NextGen system is designed to meet your unique clinical and administrative needs, making access to information easier. To help ensure your successful implementation and rapid return-on-investment, we stand by your side each step of the way with comprehensive training and support services.

# NextGen Benefits for Obstetricians and Gynecologists

---

- Simplified patient visits and better patient care through OB/GYN-specific knowledge-based templates and evaluation and management (E&M) coding
- Increased competitive advantage and enhanced overall revenue through automated data collection and user-friendly reporting tools
- Ongoing support from an award-winning team of industry experts, including a Specialty Director dedicated to serving the needs and interests of OB/GYN practices.

## Simplified Patient Visits, Better Patient Care

- **Access to exclusive OB/GYN knowledge base content**—NextGen Healthcare delivers tools, templates, and workflow developed with the help of leading obstetricians and gynecologists
- **Utilize pre-built OB/GYN templates**—easily document and store detailed patient data. NextGen software templates cover History of Present Illness (HPI), a variety of OB/GYN procedures and exams, histories, labs, consults, and more. We offer a wide selection of OB/GYN-specific data, including content for LEEP, Colposcopy, IUD, Pessary, and more
- **Tap into E&M Coding**—utilize templates that include clinical support tools
- **Accelerate electronic prescription orders**—automatically check for harmful drug/allergy interactions while speeding prescription requests
- **On-the-fly defaults**—store routine findings for frequent re-use with a single click
- **Facilitate electronic communication with patients and clinical data exchange**—utilize NextMD®, our advanced patient-provider portal, to create an interactive continuum of care between the patient and your practice

## Increased Competitive Advantage, Enhanced Overall Revenue

- **Make billing simpler**—tap into case management resources to gain easy global obstetrical (OB) billing capabilities
- **Utilize built-in, user-friendly reporting tools**—examine your practice's patterns for pay-for-performance, quality measurement, and business analysis
- **Manage your revenue cycle for faster payments**—with NextGen Practice Solutions, our full service billing solution establishes controls to capture appropriate revenue, instantly fix billing and collections issues before they become cash flow problems, and greatly reduce the concerns associated with staffing

## Ongoing Support from a Team of Industry Experts

Benefit from our proven implementation strategy and focused training philosophy—while maximizing the expertise of knowledgeable OB/GYN trainers. We guide your implementation using OB/GYN-specific training scenarios and tools. Once our system is installed, a wide variety of training and support services are available to help you maximize your technology investment.

---

“NextGen EHR provides our practice with cutting edge technology, such as electronic prescribing and a secure portal for patients to email medical questions, prescription refills, and appointment requests. Our patients and office staff applaud these conveniences. Documentation and workflow in the office is greatly improved, allowing for increased revenue and reduced overhead.”

## The NextGen Difference

It takes more than software to produce success in a complex environment. That's why NextGen Healthcare sees a business relationship as an ongoing partnership. We maintain our commitment to OB/GYN practices with specialized service, training, and experience.

NextGen Healthcare's EHR and EPM software are fully integrated to share a single database platform, providing improved control and knowledge over clinical and billing operations. Find out more about how our scalable, flexible, and reliable enterprise system can help you better coordinate care, streamline workflow, improve efficiencies, and enhance quality of care, while increasing overall revenue.
