

NextGen for Tribal Health

You Are Here.

Without the power of a cutting-edge technology solution, completing routine exams consumes valuable time and resources. Recording patient data can be inefficient and responding to inquiries is labor intensive. Accessing important test results is often cumbersome. Streamlining the IHS and outcome reporting process requires better documentation capabilities—and stronger data.

You Could Be Here.

Destination — Future-Focused Tribal Health Center

Helping to quickly and accurately treat and manage patients' disorders using diagnostic-driven templates. Improving documentation and more intelligently storing patient data to accelerate response times and reduce labor costs. Ordering and reviewing tests and lab results with a few simple clicks. Collecting discrete data and using clinical documentation tools. Tapping into tribal demographic datasets to facilitate IHS and outcome reporting. Leveraging technology to help comprehensively manage your patients' health.

So How Do You Get There?

NextGen — Empowering Tribal Health Centers with Fully Integrated Technology

Working with Tribal Centers since 2001, NextGen Healthcare provides powerful electronic health record (EHR) and enterprise practice management (EPM) software designed to accommodate the unique needs of Tribal Health practices. NextGen® EHR and NextGen EPM can be implemented as a fully integrated solution or as stand-alone applications. The NextGen system is designed to meet your unique clinical and administrative needs. As such, our comprehensive solution includes an electronic dental record (EDR) solution with parent company, QSI. In addition, we offer comprehensive training and support services to ensure a successful implementation.

NextGen for Tribal Health

NextGen Benefits for Tribal Health

- Improve and simplify patient care with standard disease management and health maintenance protocols
- Improve cash flow through automated processes and data collection
- Reduce administrative costs with WorkLog Manager and Background Business Processor
- Tap into tribal demographic datasets to facilitate IHS and outcome reporting
- Gain ongoing support from an award-winning team of industry experts, including a Director of Tribal Health Centers
- Step into an existing, well established Tribal Health User Group for instant networking opportunities

Simplified Patient Visits, Better Patient Care

- Simplify charting for all areas, including dental — while easily managing scheduling and billing
- Tap into E&M coding — utilize templates that include clinical support tools
- Accelerate electronic prescription orders — automatically check for harmful drug/allergy interactions while speeding prescription requests
- Access to a wide range of clinical content—utilize powerful tools and help streamline workflow

Patient charting screen with Tribal fields

Comprehensive Health Maintenance and Disease Management

- **Centralize patient information** — simplify data management, allowing providers to focus on patient care
- **Better monitor and report on chronic conditions** — tap into comprehensive disease management and health maintenance protocols for conditions such as diabetes, coronary artery disease, and depression
- **Help ensure timely visits, appropriate testing, and longitudinal analysis** — NextGen modules compliment the delivery of care for patient populations that require extra diligence and careful planning

Reduced Costs, Streamlined Operations

- **Collect critical discrete data and clinical documentation** — allow you to collect the information required for chronic disease management and high risk population identification, now and years from now
- **Simplify billing** — tap into automated processes to gain simplified billing capabilities
- **Better manage IHS healthcare allocations** — utilize our Contract Health Services module to help improve fund allocations
- **Promote interoperability with other medical providers** — our solutions help ensure interoperability with hospital or pharmacy systems, and provide seamless information exchange among disparate medical organizations

Ongoing Support from a Team of Industry Experts

Benefit from our proven implementation strategy and focused training philosophy—while maximizing the expertise of knowledgeable Tribal Health trainers, including a Director of Tribal Health Centers. We guide your implementation using Tribal Health-specific training scenarios and tools. Once our system is installed, a wide variety of training and support services are available to help you maximize your technology investment. In fact, we're so confident that we can provide the expertise, support, and speed you need for the smoothest transition possible, we guarantee it. www.nextgen.com/offers/guarantee.

The NextGen Difference

It takes more than software to produce success in a complex environment. That's why NextGen Healthcare sees a business relationship as an ongoing partnership. We maintain our commitment to Tribal Health with specialized service, training, and experience.

NextGen Healthcare's EHR, EDR, and EPM software share a single database platform, providing improved control and knowledge over clinical and billing operations. Find out more about how our scalable, flexible, and reliable enterprise system can help you better coordinate care, streamline workflow, improve efficiencies, and enhance quality of care, while cutting costs.
