Query of Prescription Drug Monitoring Program (PDMP)

Measure Overview

Query of PDMP	
Description	For at least one Schedule II opioid, or Schedule III or IV drug electronically prescribed using Certified Electronic Health Record Technology (CEHRT) during the performance period, the provider uses data from CEHRT to conduct a query of a Prescription Drug Monitoring Program (PDMP) for prescription drug history
Exclusions	<ul style="list-style-type: none"> Clinician/group is unable to electronically prescribe Schedule II opioids and Schedule III and IV drugs in accordance with applicable law during the performance period <p>OR</p> <ul style="list-style-type: none"> Clinician/group does not electronically prescribe any Schedule II opioids or Schedule III or IV drugs during the performance period
Points Available	10

Measure Specifications

<u>Denominator</u>	<u>Numerator</u>
<ul style="list-style-type: none">Number of Schedule II opioids or Schedule III or IV prescriptions electronically prescribed using CEHRT by the MIPS eligible clinician during the performance period	<ul style="list-style-type: none">The number of Schedule II opioid or Schedule III or IV prescriptions in the denominator for which data from CEHRT is used to conduct a query of a PDMP for prescription drug history except where prohibited and in accordance with applicable lawQP Translation: The number of times a patient's prescription history is queried before e-prescribing a Scheduled II, III, or IV medication(s)

Special Note: For a complete list of qualifying encounters, please reference the measure papers

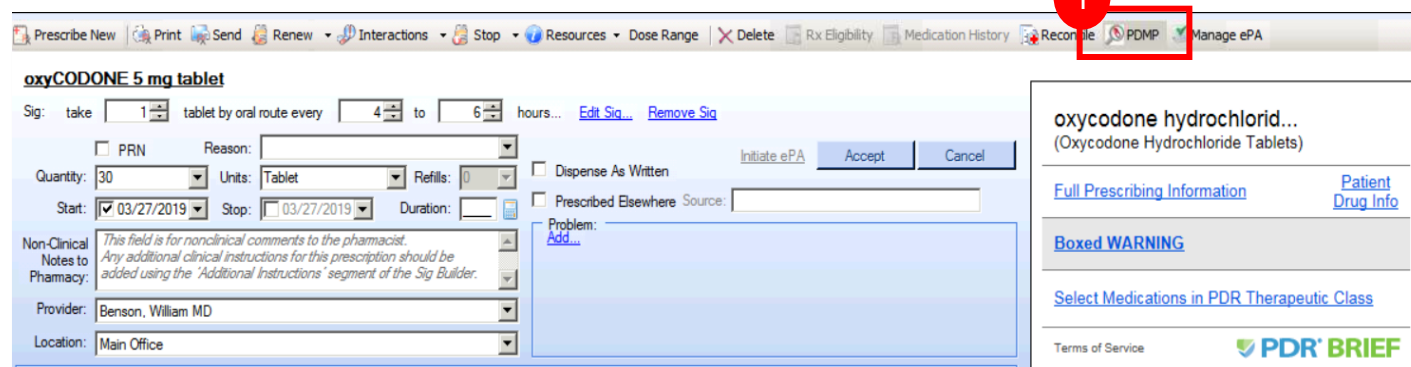

Measure Special Considerations

- MIPS eligible clinicians must query the PDMP and attest “YES” in order to earn the 10 points
 - Query of the PDMP for prescription drug history must be conducted prior to the electronic transmission of the Schedule II, III, IV medication
 - MIPS eligible clinicians have flexibility to query the PDMP using CEHRT in any manner enabled under their state law
 - HQM is able to capture PDMP queried through Bamboo Health which electronically connects the EHR to your state PDMP
- QP recommends connecting to your state’s PDMP via Bamboo Health if it is available in your state
 - If reporting in a State that is not registered through Bamboo Health, it’s recommended to follow the State guidelines prior to prescribing the Scheduled II, III, IV medication
 - Please visit <https://go.bamboohealth.com/ehrrequest> to find out if integration is available in your state
 - Once you have received your credentials (practice PDMP user name and password), open a support case with TSI.qualityprograms@nextgen.com
 - Indicate in the case that you have received the PDMP user name and password and are ready to complete the configuration in the EHR

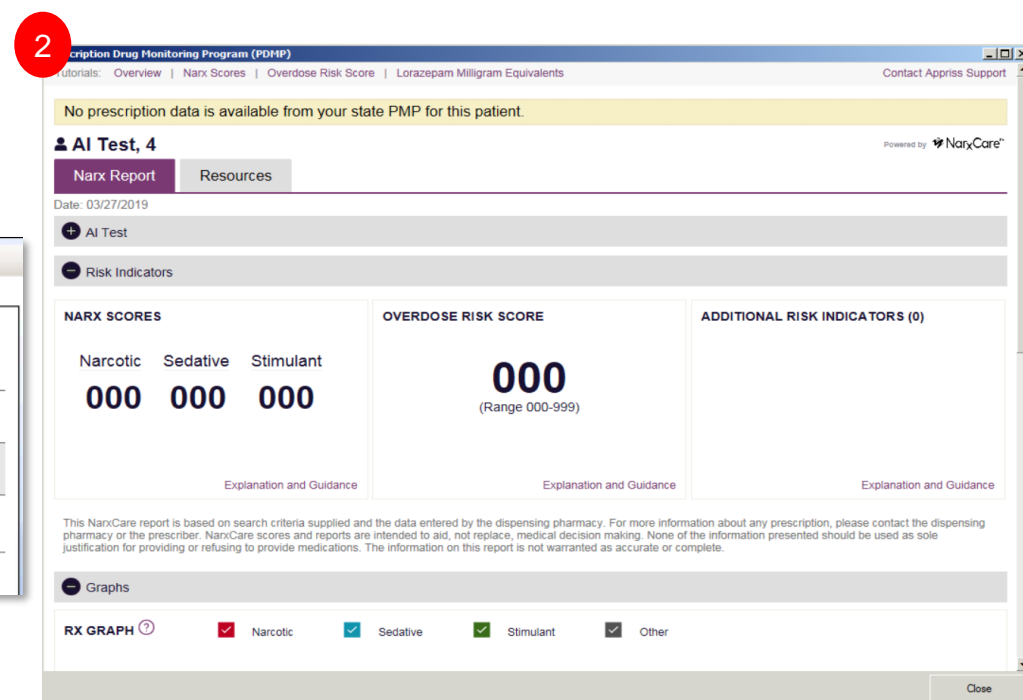

Recommended Workflow

Query of PDMP

1. From the Medication Module, click on PDMP
2. The patient's Prescription Drug History Report will appear, and the workflow is complete

The screenshot shows the Medication Module interface. The top navigation bar includes buttons for Prescribe New, Print, Send, Renew, Interactions, Stop, Resources, Dose Range, Delete, Rx Eligibility, Medication History, Reconcile, PDMP (highlighted with a red box and a red circle with the number 1), and Manage ePA. The main content area displays a prescription for oxyCODONE 5 mg tablet. The prescription details include: Sig: take 1 tablet by oral route every 4 to 6 hours; Quantity: 30; Units: Tablet; Refills: 0; Start: 03/27/2019; Stop: 03/27/2019; Duration: ; Provider: Benson, William MD; Location: Main Office. The right sidebar shows the medication name: oxycodone hydrochlorid... (Oxycodone Hydrochloride Tablets) and links for Full Prescribing Information, Patient Drug Info, and Boxed WARNING.

The screenshot shows the Prescription Drug Monitoring Program (PDMP) report for patient AI Test, 4. The report is dated 03/27/2019. It displays the following information:

- Narx Report** (Powered by NarxCare)
- Risk Indicators**
 - NARX SCORES**

Narcotic	Sedative	Stimulant
000	000	000
 - OVERDOSE RISK SCORE**

000 (Range 000-999)
 - ADDITIONAL RISK INDICATORS (0)**
- Graphs**

RX GRAPH (Narcotic, Sedative, Stimulant, Other)

The report includes a disclaimer: "This NarxCare report is based on search criteria supplied and the data entered by the dispensing pharmacy. For more information about any prescription, please contact the dispensing pharmacy or the prescriber. NarxCare scores and reports are intended to aid, not replace, medical decision making. None of the information presented should be used as sole justification for providing or refusing to provide medications. The information on this report is not warranted as accurate or complete."
