- Cloud monitoring and alerting
- Integrated patient identity management
- Scalable and high availability configurations

Powering interoperability for:

Health-tech
startups

Government
agencies

Health systems

Provider groups

Mirth®
by NextGen Healthcare

Our solutions give your business a head start

We have the expertise that organizations of all shapes and sizes need to succeed.

MIRTH FAMILY OF SOLUTIONS

Mirth® Connect by NextGen Healthcare

Effortlessly exchange, translate, and route healthcare messages across different systems.

- Drag-and-drop ETL workflow builder
- Built-in scripting engine for complex logic
- Painless translation between data formats
- Supports common healthcare standards: HL7v2, FHIR, DICOM, X12, XDS/XCA, & more

Mirth® Health Data Hub by NextGen Healthcare

Seamless clinical data normalization and aggregation.

- Built-in enterprise master patient index
- Integrated automated workflow engine
- Robust data access control tools
- Comprehensive API support

Mirth® Fully Managed by NextGen Healthcare

**Benefit from interoperability on-demand.
Deployed in the cloud with 24x7x365 support.**

- Interfaces built and managed on your behalf
- Cloud auto-scaling with disaster recovery
- Guaranteed high availability SLA
- Continuous review and correction of errors

Mirth® Health Data Hub Insights by NextGen Healthcare

Direct access to HDH patient, clinical, and operational data sets.

- Managed data pipeline (no ETL)
- Query-ready data sets
- Integrated data catalog and query library
- Self-service analytics
