

Actionable Insights That Move the Needle

NextGen Intelligence

Clinical, operational, and financial signals to prioritize work and improve outcomes.

Clinical Analytics

Deliver smarter, more personalized care powered by timely insights that illuminate patient trends and care opportunities.

Benefits

Get actionable insights from data

Use drill-down dashboards and filters to identify trends across your enterprise. Drill down by time frame, location, provider, and other parameters—to the transaction level. Bright graphics make it easier to grasp important insights.

Trusted data quality

Rely on accurate insights backed by 400+ automated data quality checks.

Benchmarking & deep analysis

Compare performance with peers and uncover opportunities for improvement through advanced analytics.

Near real-time visibility

Stay ahead with always-current metrics and intuitive self-service exploration.

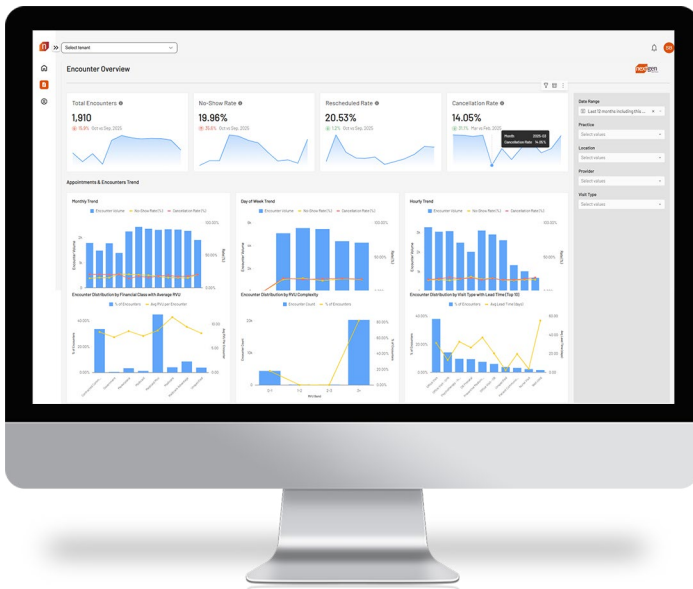

Efficiency & cost savings

Automate reporting and streamline workflows to cut administrative burden and reduce costs.

Secure & scalable

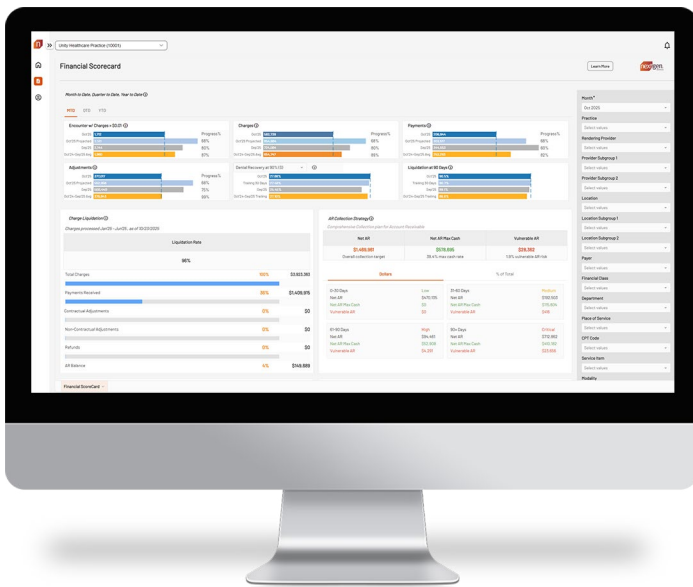

Cloud-native and role-based, built to grow while meeting healthcare compliance standards.

Operational Analytics

Empower every provider and workflow to operate at peak efficiency so care delivery runs smoother, schedules stay full, and patients stay engaged.

Financial Analytics

Turn insight into financial strength by accelerating cash flow, reducing denials, and capturing more of the revenue you earn.

Power Your Impact.
