

Next-Level Intelligence for Patient Payments

NextGen Payment Intelligence

Accelerate Payment Processing with Intelligent Automation

Your practice deserves a revenue cycle that delivers exceptional speed to cash and operational efficiency. NextGen® Payment Intelligence streamlines payment processing through intelligent batch payment posting, helping your organization improve efficiency and reduce administrative workload.

With four powerful smart features—Deposit Assist, Deposit Assist Analytics, Post Assist, and File Assist—Payment Intelligence automates key payment posting tasks and delivers greater visibility.

NextGen Payment Intelligence Features

Deposit Assist

Automates the reconciliation of posting to bank deposit statements, significantly reducing the time RCM and accounting teams spend on reconciliation.

Deposit Assist Analytics

Provides a dynamic reconciliation report for variance identification and MTD tracking, a near-real-time deposit reconciliation workflow, and continuous refresh to reduce RCM burden.

Post Assist

Provides automated, rules-based analysis and reporting of potential posting errors for soft-posted batches, enabling posting with QA rules-based analysis and quality control.

File Assist

Automates SFTP setup for file retrieval with your bank and clearinghouse. It also automates activity related to posting by setting up BBP ERA import and posting jobs.

BENEFITS

- Reduce FTE spent on posting by up to 50%
- Reduce time spent on correcting posting errors by up to 80%
- Better maintain patient balances with intelligent automation
- Prevent delays in cash posting

“With the support of NextGen RCM Intelligence and Payment Intelligence, we have automated many transactions and tasks, which allows us to utilize our precious human resources in more meaningful ways, advance our financial objectives, and enhance our ability to provide exceptional patient care.”

*Anne Bond, Director of Revenue
Athletico Physical Therapy / Waystar Clearinghouse*
