

An EHR as Carefully Crafted as the Gastroenterology Care You Give

Gastroenterology practices face unique challenges that can be addressed by integrating personalized workflows and Smart Lists that reduce cognitive load.

NextGen Gastro Suite is a specialty package that overlays the award-winning, CURES-certified NextGen® Enterprise EHR with gastro-specific workflows. Importantly, our Smart Lists offer providers pre-defined lists of common observations and action items unique to your specialty that can visibly improve efficiency and documentation accuracy.

Features of NextGen Gastro Suite include:

- Provider Smart List for Patient Complaints
- Provider Smart List for Diagnosis
- Provider Smart List for Orders
- Configurable in-office testing and procedures include, but are not limited to:
 - PH Testing
 - Banding/Infrared Injections
 - PEG2 Placements
 - Liver Elastography
 - Suture Removal
 - Anorectal Manometry
 - Imaging
 - Breath Tests
 - Trigger Point Injections
 - Sclerotherapy
 - Infrared Coagulation (IRC)
 - Coagulation with Bipolar Diathermy

- Streamlined Pre-certification
- Repeat Colonoscopy Tracking with Future Task Management
- Quick Orders for Procedures with Details by Performing Location or Patient Exceptions

When you streamline documentation, your care team can better manage multiple gastroenterology procedures and ensure quality care at every step of the patient's journey. Time-saving solutions such as mobile documentation, cloud hosting, and interoperability can also help drive clinical optimization.

Benefits

Increase patient volume

Leverage mobile technology to improve the EHR user experience. NextGen® Clinical AI for NextGen® Mobile utilizes ambient listening technology to securely convert natural patient-provider conversations into structured SOAP notes, saving providers up to two hours per day.

With NextGen Mobile, physicians can easily complete clinical tasks, document detailed patient encounters, and open doors to more patients in a single day.

Benefits (cont.)

Share patient data with ease

The ability to seamlessly share patient data, such as PACS, lab results, and other patient data, with providers in your community is vital to the long-term success of the care you provide. Solutions like NextGen® Share make it possible to effortlessly share vital patient data across many different systems and locations.

Improve patient engagement

The NextGen® Closed Loop® Patient & Practice Experience brings the best solutions for patient engagement, payment collections, and claims processing all under one unified platform.

This integration improves both participation and satisfaction for patients, from access to intake, the visit, care coordination, and ongoing health management.

Maximize enterprise capabilities

Enterprise architecture includes a single source of truth, analytics, and real-time reporting. No layer of complexity is too great to manage.

Reduce security risks

Provided in collaboration with Amazon Web Services (AWS), NextGen® Managed Cloud Services help you gain peace of mind by making your data as secure as possible. Our team of experts work to optimize your cloud environment and provide 24/7 support to ensure your data is protected.

Receive specialty-specific tech support

With a clear understanding of gastrointestinal care, we work closely with your care team to ensure your practice maximizes the benefits of our solutions.

Other highlights

Bring in more of the money you've earned

The award-winning NextGen® Enterprise PM and billing platform is essential to maintaining a financially lucrative practice. Automate routine billing processes and decrease denials with the Black Book top-ranked PM solution for physician groups 1-50+ providers for seven consecutive years.

Take advantage of intelligent quick orders

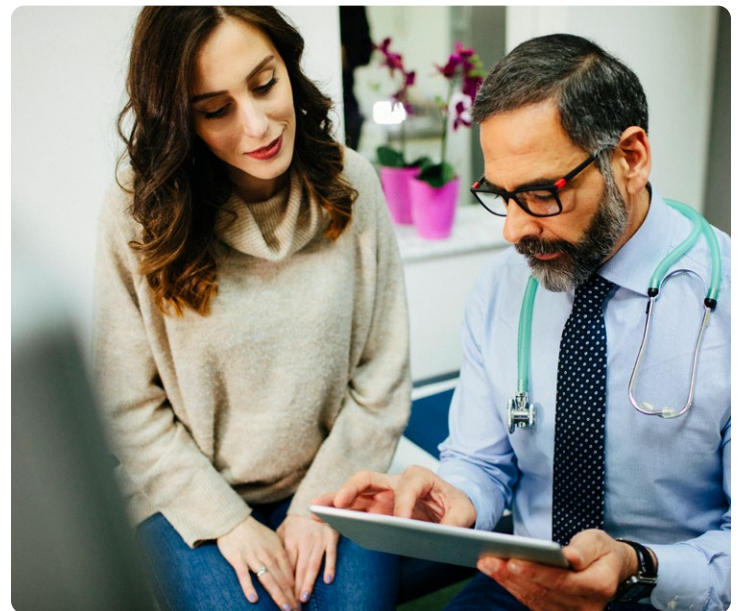

Quick orders use crowdsourcing to utilize intelligent provider-focused orders to task support staff, start a medication, and provide the documentation to track patients from order to outcome.

Get shortcuts to reduce clicks

NextGen Gastro Suite incorporates keyboard shortcut technology to launch quick text with simple keystrokes—the answer to eliminating clicks.

Reduce no-shows

Invite patients to opt-in to in-office or virtual visit waiting lists and ask patients who previously canceled to reschedule appointments.
