THE INTEGRATED PRACTICE

Unifying Your Technology for Seamless Care Delivery

NextGen Healthcare remains committed to investing, innovating, and delivering capabilities in a way that is faster, smoother, and less disruptive over time. That's why we're helping specialty practices succeed by bundling our solutions into three straightforward packages: **Basic, Essentials, and Advanced.**

The goal here is simple: We want to make it as easy as possible for your practice to thrive and be ready for whatever the future brings. Instead of having to piece together your own technology, we've done the heavy lifting for you. By wrapping everything you need into comprehensive packages, we make sure you have the right tools to run smoothly from day one. Best of all, this approach is designed to work seamlessly for all medical specialties.
