

NextGen Office for Women's Health

Deliver personalized care with an EHR built for specialty-specific workflows and visits.

NextGen® Office includes strong out-of-the-box content for women's health, obstetrics, and gynecology. Your independent practice shouldn't have to settle for an EHR built around primary care. NextGen Office delivers pre-built clinical content for OB/GYN that can be further customized to meet your specific preferences.

OB/GYN features

Custom forms

Improve efficiency with forms that streamline workflows and speed up documentation. NextGen Office offers custom forms for:

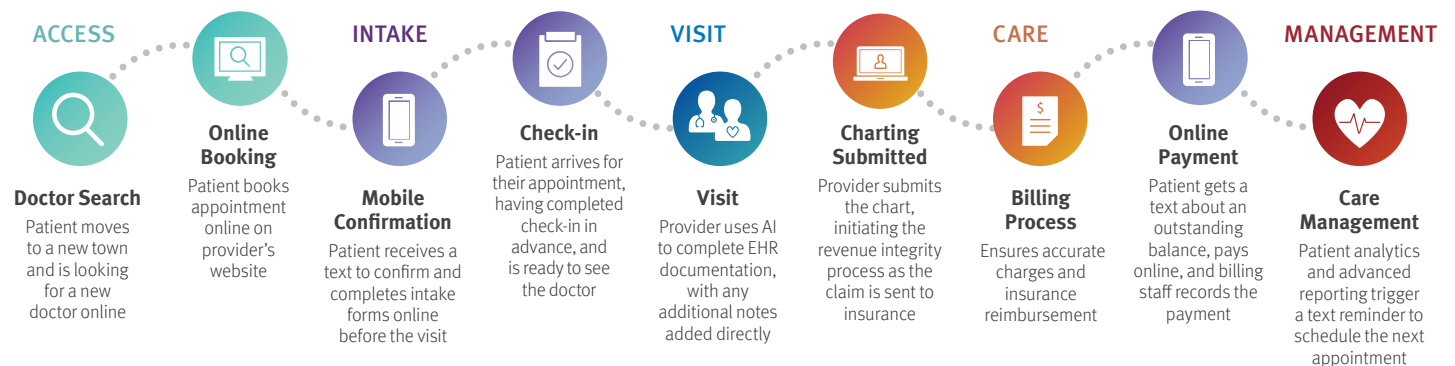

- Contraceptive History
- Gynecologic History
- Risk Factor Assessment
- Complete Sexual History
- Focused Sexual History
- Pregnancy Prevention
- STD History
- Adult Abuse
- Child Abuse
- Elder Abuse

Blueprints

OB/GYN clinical content also includes 24 blueprints for common visit types, including:

- Acute UTI
- Postpartum Visits
- PCOS
- IUD Insertion/Removal
- Contraception Evaluation
- Heavy Bleeding
- STI Screening
- Well-Woman Visits
- Cervicitis

Supporting comprehensive women's care

Big capabilities. Independent practice support. One platform.

The NextGen® Office Closed Loop™ Patient & Practice Experience is an integrated, end-to-end solution that creates a seamless experience for patients, providers, and staff. Curated with the goal of enabling practices to establish better healthcare outcomes for all, this platform focuses on the entire care journey. The stages of this interconnected platform include access, intake, the visit, care coordination, and care management.

[Learn More >](#)

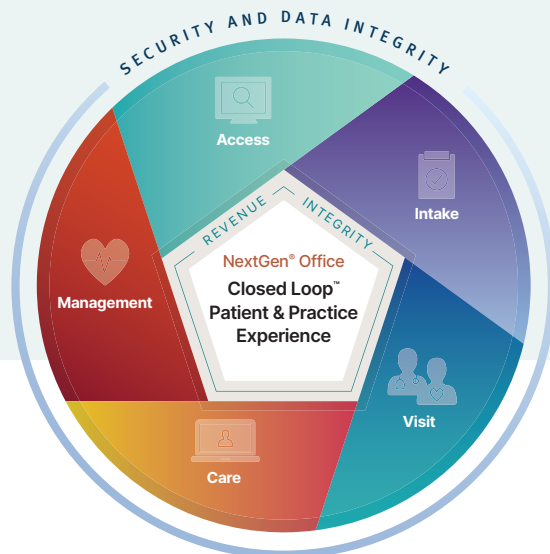

From well-woman to acute visits, the NextGen Office Closed Loop Experience supports patients, providers, and practices in delivering well-rounded, individualized women's care.

With the right tools, you can optimize care delivery and practice performance. Custom forms and blueprints coupled with solutions like AI-powered documentation and automated billing, drive patient engagement, provider satisfaction, and stronger financial outcomes.

Support your patients with an EHR that supports you.

"I would say if you're thinking about switching, switch. You're not going to regret it."
