

Modernize Practice Management with Confidence

NextGen® Enterprise PM

Built to scale specialty care organizations

NextGen Enterprise PM (Practice Management) isn't just a feature-rich practice management platform—it's designed to help specialty care organizations scale efficiently, improve financial performance, and modernize at their own pace.

As specialty practices grow, their operational needs become more complex. NextGen Enterprise PM is designed to scale with your organization, providing the flexibility to support a range of business strategies—from standardizing vendors across the enterprise to allowing providers to choose their preferred EHR.

NextGen Enterprise PM works with a range of EHRs to meet the business demands of enterprise-level specialty care practices.

NextGen Enterprise PM	Typical Specialty PM Platforms
Enterprise scalability	Limited flexibility as your practice evolves
Advanced reporting & analytics	More limited enterprise reporting
End-to-end automation	Basic automation
Payment intelligence	Often unavailable or limited
RCM intelligence	Often unavailable or limited
Background business processor	Limited enterprise automation
Integrated patient engagement	Frequently requires third-party integration
Phased modernization path	More commonly all-or-nothing migrations

Prevent errors before they happen, automate payment reconciliation, streamline back-end workflows.

NextGen Enterprise PM capabilities

Registration & Scheduling

Enterprise-wide configurability with automated eligibility and check-in workflow intelligence

Coding & Operations

Advanced technology that drives intuitive workflow performance, ensuring billing accuracy and staff efficiency

AI Rules Engine

Precision and accuracy with AI-driven automated modifications, streamlining workflows and optimizing revenue cycle management

Clearinghouse & EDI

Award-winning clearinghouse technology designed to streamline claims processing, reduce denials, and accelerate reimbursements

Collections & A/R Management

Collection efficiency—pre-service, during service, and post-service

The **NextGen® Background Business Processor (BBP)** automates practice management processes, such as:

- Reports, statements, billing, and claims generation
- Collection and recall letter generation
- Directory imports
- Stored procedures
- Person merge processing
- Real-time services (RTS) eligibility checks
- Claim status requests

Integrated patient engagement

Through our partnership with Luma, organizations can connect patients across the care journey via:

- Convenient self-scheduling
- AI customer service agents
- Automated appointment reminders
- Smart re-booking
- Easy digital intake
- Seamless patient outreach
- Ongoing recall campaigns
