

NextGen[®] Population Health

Facts and Client Testimonials

Driving Top 10% ACO Performance

“Bridges Health Partners improved quality of patient care for over 25,000 Medicare beneficiaries in Western Pennsylvania while collectively saving Medicare nearly \$30 million in total medical expenses from 2018 through 2020 Bridges reaches key milestone that fewer than 10% of ACO’s achieve in their first 3 years of operation.”

Dr. Rob Zimmerman, Chief Medical Officer
Bridges Health Partners
October 2021

Increase Practice Revenue

“The last time our multi-specialty practice saw in an increase from insurance companies based on fee-for-service medicine was 8 years ago. Insurance companies and the government are putting their dollars into these kind of quality programs, pay for performance or share savings kind of things. The only way your practice is going to get an increase in revenue is by engaging with Population Health.”

Driving Value in the Community

With a primary objective to ensure vaccination equity, DVCH successfully vaccinated more than 10,000 people since receiving its first shipment of vaccines.

“You can’t do that without actionable population health data. You can’t do that without understanding where your community and your relationships are.”

Isaiah Nathaniel, CIO
Delaware Valley Community Health

What is Driving Satisfaction?

KLAS Reports as of October 2021

DRIVING SATISFACTION	
Vendor executive involvement	● ● ●
Delivery of new technology	● ● ●
Product works as promoted	● ● ●
Overall product quality	● ● ●
Quality of implementation	● ● ●
Supports integration goals	● ● ●
Ease of use	● ● ●
Drives Tangible Outcomes	● ● ●
Quality of support	● ● ●

Executive Involvement Delivers Value

“I appreciate the continuous communication between our two organizations. NextGen Healthcare really views this as a partnership. The product has made great strides from where it started, and a lot of that is due to the work of both of us. NextGen Healthcare is willing to listen to our concerns. They understand what we are trying to achieve and are aligned around those goals. Our success is their success and vice versa.”

Tom Boggs, CEO
Bridges Health Partners
