Maine's Largest Statewide Physician-Owned Multispecialty Adopts Integrated Ambulatory Platform to Improve Patient-Provider Experience and Financial Outcomes

ATLANTA--(BUSINESS WIRE)--Mar. 1, 2021-- [NextGen Healthcare, Inc.](#) (Nasdaq: NXGN), a leading provider of ambulatory-focused technology solutions, today announced that Maine's largest statewide physician-owned multispecialty organization, [Spectrum Healthcare Partners](#) (Spectrum), adopted NextGen Healthcare's portfolio of integrated solutions for its orthopedic division. Spectrum faced challenges using multiple electronic health records (EHR) across its four individual orthopedic practices which include rehabilitation therapy, walk-in clinics, and ambulatory surgery centers (ASCs). Utilizing NextGen Healthcare's integrated platform allows Spectrum to consolidate and standardize operations while improving clinical workflow.

Spectrum is leveraging a full spectrum of solutions including the NextGen® Orthopedic Suite, NextGen® Therapy Suite, NextGen Virtual Visits™, NextGen® Patient Experience Platform, NextGen® Managed Cloud Services, and NextGen® Mobile. In addition, Spectrum has adopted [NextGen® RCM Services](#) to help streamline billing and collections and support practice growth.

"NextGen Healthcare was the only company that offered a single database, enterprise-ready musculoskeletal solution that could address the needs of our multi-discipline orthopedic organization," said Norm Belair, chief financial officer, Spectrum Healthcare Partners. "We were also impressed with the company's solid and successful history of providing revenue cycle management services to musculoskeletal organizations."

"Our enterprise platform provides musculoskeletal organizations with seamless clinical workflows. It also delivers enhanced analytics required for complex, multispecialty groups such as Spectrum," said John Beck, chief solutions officer, NextGen Healthcare. "Through our integrated solution, practices can dramatically enhance patient engagement and improve outcomes, while creating operational efficiencies."
