

The world is changing; no one knows what tomorrow will look like. This year we quickly shifted from our daily routines and schedules to create our “new” norm, while ensuring proper safety measures were in place as we continue to battle the COVID-19 pandemic.

Did COVID-19 force you to Innovate? Tell us how!

Join us at our virtual NextGen® User Group Meeting November 9-12, 2020 and be part of the “NextGen Healthcare Client Innovation Contest!” This year we are moving away from the usual focus on the EHR to celebrate any and all innovations that your practice **implemented to help** your patients and providers steer through the pandemic that has shifted our world this year. These might be new processes, new ways of delivering care, or any other changes to your EHR, PM, or practice in general to handle challenges created by COVID-19.

Send us an overview of the innovative ways you and your practice have adapted to the crisis by submitting a description, photos, videos, and articles or anything that illustrates your accomplishments. To be entered in to the contest please email us by Friday, October 23 to clientinnovations@nextgen.com.

If your entry is selected for the finals, on Thursday, November 12 during a live session at our virtual UGM you will showcase your innovation with a five to ten-minute presentation highlighting its novelty and effect on your practice and patients. Other client attendees at the session will then vote which is the “most innovative”. The winner will receive (2) complimentary NextGen UGM 2021 registration passes, a post in the NextGen Healthcare Success Community featuring the strategy and a Social Media Post from NextGen Healthcare announcing their strategy and the winner of the contest. We’ll also share all finalist entries during our Welcome Reception on Monday, November 9th.

This year’s Client Innovation Contest is a great opportunity to share your creativity and successes and to help other practices see how they can work together to continue to fight the COVID-19 pandemic today, to **THRIVE** tomorrow!
