TSI Medication Orders template

The TSI Medication Orders template assists practices in tracking ordered medications to be used with the TSI SUBQ/IM template by adding a standing order and/or tracking Prior Authorizations.

The Medication Order template can be accessed from the *SOAP TSI or TSI SubQ/IM templates.

1. To access the Medication Orders template from TSI SubQ/IM template – click the blue link "Place Future Medication Order".

low to Use This Template								•
oday's Injections	Default Pr	ovider: Unassigned					۲	
oday's Assessments: (Select a diagnosis to associate with th	e desired injection(s) below.)	Standing/F	uture Orders:					
# Diagnosis Description	Code	Ordered	Description	Dose	Route	ICD	Comments	
Vitamin D deficiency, unspecified	E55.9

NOTE: TSI EHR 2022 release enhancements

- Added template default functionality for quicker documentation of medication orders.
- Med Orders has been added as a new tab in the Assessment / Plan pop-up template suite.

The medication order is now ready to use as a Standing/Future order from the TSI SubQ/IM injection template.

Select the Standing/Future Order from the top, right grid to populate the injection details in the fields below for the current encounter.
