COMPLIANCE

Stay current with ever-changing regulatory, documentation, and compliance requirements

Solution description

Comply with ever-changing regulatory, documentation, and compliance requirements with NextGen® Health Quality Measures (HQM). NextGen HQM empowers you to gather the data you need for reporting and prove the value of the care you deliver. When combined with NextGen® Adaptive Content Engine (ACE), you can achieve rapid tailoring to local rules and needs.

What this solution enables

HQM workflows make gathering the data needed for reporting and regulatory compliance a natural part of your clinical workflow. When combined with the power of the ACE, you can even meet unique or local requirements quickly and easily.

- Achieve top scores in MIPS/MACRA

- Prove the value of care you deliver to payers and stakeholders

- Understand the ever-changing rules and requirements

Solution snapshot

Cost Optimization	Revenue Maximization	Quality Improvement	Adoption Effort	Impact
★★	★★★	★★★★	Medium	★★

What does this mean for your practice?

- Remain current with government requirements

- Leverage quality and coding data to gain insights and compare with best practices

"I can gain clean insight through the HQM utility on a weekly, and now even a daily basis, as to my doctors' performance with the quality programs. It is a very valuable tool for achieving quality goals."

Aaron Higgins, EHR and Quality Programs Manager
Savannah Vascular Institute
