

PLUG-AND-PLAY APIs

Easy-to-activate, simple-to-use data exchange mechanisms

Solution description

The NextGen® API partner program extends the NextGen® Enterprise platform to clients, partners, and the development community. The goal is to provide access to a platform of 90,000 plus providers to enable innovative capabilities that advance the quadruple aim.

What this solution enables

With NextGen® Enterprise API, organizations have more power than ever to turn on easy-to-use, low-cost data exchange solutions including patient-facing apps and national data exchange platforms. The NextGen® Enterprise API powers the activation of programmatic connections to the NextGen® Enterprise EHR. It allows validated NextGen users to access clinical data from the NextGen EHR database, with a cloud-based, single connection. It is a representation of the NextGen EHR database that allows read, write and delete functionality, and offers customers an easy way to do business with third-party developers and strategic partners through smooth, straightforward onboarding and contracting.

Solution snapshot

What does this mean for your practice?

NextGen API enables you to:

- Extend the reach of NextGen Enterprise core system
- Deploy third party application within your environment at no cost to you or the partner
- Platform to commercialize internal development efforts to an audience of 90,000 plus providers

“We continue to pursue a broader connected physician community and working with NextGen Healthcare is giving us the tools and solutions needed to accomplish this goal.”

Roberta Sniderman, Administrative Director,
Healthcare Partners Medical Group
