CONTRACT AUDIT AND RECOVERY

A full-service solution to recover everything you've earned

Solution description

NextGen contract audit and recovery is a premier managed service that provides class-action settlement recovery and payer payment recovery services.

What this solution enables

NextGen contract audit and recovery is a customized, turnkey underpayment recovery service that ensures you receive the full share of everything you earn. Our partners, highly trained and accredited analysts use a proprietary audit management system to confirm that reimbursements meet negotiated and contracted rates across multiple payers. This solution is delivered with limited resources required from you.

- Ensure reimbursements from payers meet negotiated contracted reimbursement rates

- Free your staff from loading your own contracts and fee schedules, performing analysis, and appealing findings with payers

- Receive actionable recommendations to decrease future concerns and fix any identified compliance or quality issues in your billing configuration

What does this mean for your practice?

- With little or no distraction to your teams, we can recover real revenue that otherwise would be lost.

- As a by-product of our recovery work, we provide feedback to help your teams improve their processes, reducing future underpayments and compliance risks.

> "We've been using NextGen for less than a year and have seen an impressive increase in revenue and a significant stabilization in cash flow."

Rob Gregory, Vice President of Operations
